Ref.100/PSR/II Dated 7.1.'50.

From Sri B.Madhavarao Naidu, B.A.,
Collector, Cuddapah.

To
The Secretary to Government, Revenue Department,
Fort St. George, Madras.

Through

The Secretary, Board of Revenue, Land Revenue and Commercial Taxes, Chepauk, Madras.

Sir,

i - grant to Political sufferers - date tree
mbokes - assignment - instructions - requested.

***

tical sufferers of this district have applied for the assignment of date tree porambokes containing a large number of date trees. Now a doubt has arisen in the advisory committee meeting held on 22.12.49 whether date tree porambokes can be assigned to the political sufferers in view of the fact that in some parts of the province jaggery is being manufactured from the juice obtained from the date trees. If the date tree

porambokes are assigned, the trees will be destroyed for makin the land fit for cultivation and as such the topes will get extinguished in course of time. I, therefore, request the instructions of the Government whether date tree porambokes containing large number of date trees can be granted on assignment to the political sufferers.

To A.S.

Please see the letter from the Collr. of Cuddapah and the Boards ref. in the c.f.

2. The Collr. of Cuddapah has requested orders whether date tree porambokes could be assigned to political sufferers who apply for them. He has stated that the date trees are liable to be destroyed for bringing the lands under cultivation which may affect the manufacture of jaggery from the juice of the date tree being done in some parts of the State. Under B.S.O. 15 (35)(iv) tope porambokes containing groups of trees i.e. roughly exceeding 10 trees per acre have to be reserved in the interest of forest revenue though the assignment of such land is unobjectionable and under B.S.O.18 2 (a) lands on which there are large groups of palmyrahs, date palms etc. should not usually be assigned The Board has also informed the Collr. of Chittoor that topes with clustersof fruit bearing and other trees have to be treated as required for communal purposes and reserved. In Memo No.40298F/49-1 Rev. dated 5-8-49 ordershave been issued that lands containing trees at the disposal of Govt. and assigned according to the orders in G.O. No.1523 Rev. dated 11-6-49 if their assignment is not objectionable and the tree pattadar should be treated as if he is Sirotjamadar in respect of the lands over which the trees stand.

3. Date trees should be treated as fruit bearing trees. Date jaggery is also being manufactured though

not on a large scale . It appears that date trees on porambokes should be considered to be useful for communal purposes. The Collr. of Cuddapah has stated that assignment of date tree porambokes will result in the date tree topes being extinguished in course of time. It is therefore for orders whether the Board and Collr. may be informed that such porambokes containing a large number of trees should not be assigned and that the assignment of such porambokes may be made unde the provisions in the B.S.Os. For Orders.

The Govt. may direct that such porambokes shou not be assigned. Apart from the manufacture of jaggery sm baskets etc. are manufactured from date leaves as a cottag industry. It will be uneconomical to destroy such trees with a view to bring the lands under cultivation. The Col may be informed that porambokes or lands at the disposal the Govt. containing date trees should not be assigned, may also see.

'A' above may be done.

V.K.R
21.2.50

We are allowing the cutting of thousands of palms in other districts. I do not agree with the Collr. and the Bd. There should be no objection to assign: It is stated that the average is 10 trees per acre; whatever the number, these porambokes may be given to political sufferers and tree value collected as usual.
